of Correction

Dear Sir:

It is respectfully requested that a Certificate of Correction be issued for the above-identified patent on the basis of the following.

This patent was issued March 16, 2004 without indicating any of the pertinent priority data, as outlined below. A Certificate of Correction showing the relevant priority data is respectfully requested in light of the following information.

Background

This continuation-in-part application was filed on September 11, 2000, and the Application Transmittal included a request to amend the specification to claim priority to U.S. Application 09/623,365 (Application No. unknown at the time of filing this CIP application), filed September 1, 2000, which is a national phase of International Application No.

PCT/DK99/00096, which claims priority to Danish Application No. DK 0284/98, filed March 3, 1998. For the convenience of the Office, a copy of the September 11, 2000 Application Transmittal is attached hereto.

Also enclosed for the convenience of the Office is a copy of the executed Declaration for this CIP application, which clearly claims priority to parent Application No. 09/623,365.

As this was an error on the part of the USPTO, it is believed that no fee is required for issuance of the requested Certificate of Correction.

Due to certain business considerations, expedited action on this petition is respectfully requested.

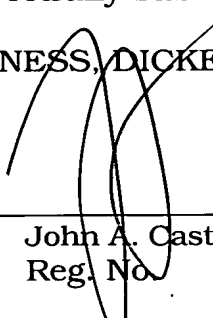

If there are any questions regarding this application, the Examiner is invited to contact the undersigned at the number given below.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies to charge payment or credit any overpayment to Deposit Account No. 08-0750 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Respectfully submitted,

HARNESS, DICKEY & PIERCE, PLC
